

Task Link Reports

Nocti Business Solutions Task-Link reports provide detailed information on individual test-taker performance for the various tasks within a duty area. By utilizing a Task-Link report, employers can easily identify strengths and areas for improvement by task for each participant.

Individual reports can be used to identify challenging tasks for an entire training group, allowing instructors to focus training. Task-Link reports are available for all Job Ready and most Customized Assessments.

Task Link Report

Site Code: XXXX Multiple Choice Assessment Level: Business & Industry
 Test Title: Assessment Title *Items Correct by Participant* Type: Post-Test
 Test Date: XX/XX/XXXX

Duty	Task Description	# Items Possible Per Task	Average Correct by Group	Participant 1	Participant 2	Participant 3	Participant 4
